Attn: Mr. Jim Mack, Office Manager
Mr. Steve Hmhros

We refer to our phone conversation of today (July 17, 1987) with Jim Mack. Steve Hmhros has been promising us a copy of the finished report on the Tifa site that was submitted to National Gypson - EPA on June 2, 1987.

To date we have not received a copy of this report. This has created a severe strain on our company, created adverse publicity and caused numerous difficulties with Insurance companies.

We have been more than gracious to your organization in allowing you to remove drums of unknown material on our property and in our building for the past year.

If you do not deliver a copy of said report submitted to National Gypson - EPA by Monday July 20, 1987, 5:00 p.m., you will have 24 hours to remove items. If the report is not received by that time, we will call in a trucker to have drums and trailer delivered to your facility in Liberty Corner.

It is regretted that your lack of cooperation has provoked this situation to arise.

Yours truly,

TIFA (C.I.) LIMITED
